

# THE PIOCHE WEEKLY RECORD.

VOL. XLIV.

PIOCHE, NEVADA, THURSDAY, JUNE 27, 1895.

NO. 40.

## OUR WASHINGTON LETTER.

Washington, June 20, 1895.

Uncle Sam knows a Yankee trick or two. It might be supposed when the President issues a special proclamation against filibustering and the Secretary of State gets the Secretaries of the Navy and Treasury and the Attorney General to issue orders directing the employees of their respective departments to be on the alert to keep American filibustering out of Cuba, that the Government of the United States was determined at all hazards to cut off American aid from the Cuban revolutionists. But that isn't the view of the matter taken by the knowing ones. This sudden activity on the part of the Government owes its origin to representations made by the Spanish Minister, and is intended as much—probably more—to prevent Spain having a good case for damages against the United States as to frighten intending American filibusterers. International Courts of Arbitration are not slow to award damages in such cases—the verdict against Great Britain in the Alabama claims case is readily recalled by most people, and was doubtless discussed at the cabinet meeting previous to the inauguration of all this activity. It isn't then a question of sympathy, as many seem disposed to think, but of plain, every day dollars and cents. The United States must officially take precautions to prevent a violation of the International Neutrality laws, or find itself called on to pay a big bill of damages if Spain succeeds in subduing the revolt. The administration thought it was wise to take those precautions, but nobody in Washington appears to believe that any of our officials on board the cruiser Raleigh, now in Florida waters, the revenue cutters, or on shore will strain their eyes or sit up o' nights to find and arrest Americans upon filibustering bent. Those officials are all Americans, and doubtless to a man their sympathies are with the Cubans. Of course if they see any violation of law they will be prompt in making arrests.

Judge Springer, who seems to take as naturally to his judicial duties as though all the years he spent in the turmoil of the House had been passed on the bench, is in Washington on business. He says of his new home: "Indian Territory is improving very fast in every way. White people of a good class, honest and industrious, are pouring in rapidly, and the towns are growing and developing along the same lines of municipal progress that we see in the various states of the union. I think the report of the Dawes commission has been largely responsible for this. Everybody realizes the ultimate destiny of the territory. Sooner or later it will become a state, and even now in population, wealth, area and resources it has all the prerequisites of statehood." When asked his opinion of the silver movement, Judge Springer assumed his most judicial cast of countenance and said something about it not being proper for judges to express opinions on such subjects. Well, well! things change and men change and men change with them. Still, it is difficult for a Washington newspaper man to realize that "Bill" Springer hesitates to express an opinion upon anything.

There is one thing about putting the Government printing office under the civil service rules, which has been accomplished notwithstanding the opposition thereto. If the rules are properly enforced the Public Printer will have more time to devote to the legitimate work of his office than he has ever had before. Under the old method of making appointments the greater part of the public printer's time was taken up by listening to the friends of applicants for appointments. This was particularly true when congress was in session, and the great test of the new system will be when Congress reassembles. Of course on general principles there can be no valid objection to making appointments anywhere solely on merit. But accusations of favoritism have been made in other branches of the Government, and it is not probable that the public printer will succeed in escaping similar accusation. Some shrewd friends of organized labor predict that the change is the first step towards the end of the reign of the Typographical Union, which has controlled the Government Printing Office since its establishment. They think that under the new rules non-union printers are certain to get in, and there will be no way to either compel them to join the union or to get out as they will be protected by the civil service rules.

It gets more and more difficult to get anything tangible out of the silver news which is brought to Washington. The assertions of every individual appear to be based upon his hopes, and those of men equally trustworthy are directly opposed to each other. For instance, Secretary Carlisle, who has just returned from Kentucky, says the administration men will control the state convention which meets next week, while Senator Blackburn writes that the free silver men will control it. Both cannot be right.

A Winemucca Chinaman was heard speaking to himself as he ironed a shirt. Picks up one showing evidence of having been well cared for, and says: "Bachelor. Him lan' lady fix him." Picks up another, buttonless and all frayed at the wrists and neck, and says: "Mallied man."—Ex.

Nineteen members of the Republican National Committee have signified their desire to hold the next Presidential Convention in San Francisco.—Reno Journal.

J. S. Coxey of Commonwealth army notoriety will probably be a candidate for Governor of Ohio before the Populist convention, which will meet at Columbus August 1.

Most medical men consider that a cold bath every morning is apt to do more harm than good to any but persons of a very vigorous constitution. The sensible thing to do is to see that the temperature of the water in cold weather is not lower than that of the air. A daily bath is a most healthful practice; but it should not be so cold as to give a shock to the system.—Scientific American.

## DON'T STOP TOBACCO

IT'S INJURIOUS TO STOP SUDDENLY and don't be imposed upon by buying a remedy that requires you to do so, as it is nothing more than a substitute. In the sudden stopping of tobacco you must have some stimulant, and in most cases the effect of the stimulant, be it opium, morphine, or other opiates, leaves a far worse habit contracted. Ask your druggist about BACO-CURO. It is purely vegetable. You do not have to stop using tobacco with BACO-CURO. It will notify you when to stop and your desire for tobacco will cease. Your system will be as free from nicotine as the day before you took your first cheroot or smoke. An iron-clad written guarantee to absolutely cure the tobacco habit in all its forms, or money refunded. Price \$1.00 per box or 5 boxes (\$5.00 days treatment and guaranteed cure.) \$2.50. For sale by all druggists or will be sent by mail upon receipt of price. SEND SIX TWO CENT STAMPS FOR SAMPLE BOX. Booklets and proofs free. Eureka Chemical & Mfg Co., LaCrosse, Wis.

Eureka Chemical & Mfg Co., La Crosse, Wis.

Dear Sirs—I have been a tobacco fiend for many years and during the past two years have smoked fifteen to twenty cigars regularly every day. My whole nervous system became affected, until my physician told me I must give up the use of tobacco for the time being, at least. I tried the so-called "Keeley Cure," "No-To-Bac," and various other remedies, but without success, until I accidentally learned of your "BACO-CURO." Three weeks ago to-day I commenced using your preparation, and to-day I considered myself completely cured; I am in perfect health, and the horrible craving for tobacco, which every inveterate smoker fully appreciates, has completely left me. I consider your "BACO-CURO" simply wonderful, and can fully recommend it.

Yours very truly,  
C. W. HORRICK.
